

Christmas Tweets by Teresa Morgan

I am really enjoying making Christmas cards with these fabulous stamp sets from Personal Impressions Sweet Dixie Collection. Lindsay Mason's designs are a lovely mix of modern and traditional, so there is something for everyone! Christmas wouldn't be Christmas without a robin, and this one is a beauty.

I coloured the robin and holly with Copics and Promarkers, adding some festive sparkle with Ice Stickers in Stardust. He is mounted onto the die cut circle with 3d foam for dimension.

I used the little music notes to create my background, stamping with Versamark ink and embossing with silver embossing powder. The sentiment is stamped in black and matted onto silver card.

A clean and quite simple design that allows the robin to be the star of the card!
