

## Decorative Snow Tree Candle by Tracey Fairgrieve

I'd like to share a simple scented candle decorated using Sweet Dixie [\\*Snow Trees\\*](#) Stamps Designed by [Lindsay Mason](#) from the Sweet Dixie collection [Personal Impressions](#).

The tree has been stamped onto tissue paper using versamark embossing ink and heat embossed using Sweet Dixie [Green Super Sparkles embossing powder](#). The tree has been cut out and positioned onto the candle; by gently heating with a heat tool the image sinks into the candle as the wax warms.

Using [Sweet Dixie Gold Super Sparkle](#) the process was repeated for the Star and \*Peace on Earth\* sentiment from the snow trees stamp set.

As this **candle was created for decorative use \*only\*** Gemstones & Sequins have been attached using Gem Tack. The finished design would fit any home during the festive season or make a super handmade gift..

All wrapped to give with a bow on top, the gift tag has been made using the small tree stamp also included in the [Snow Trees Set](#).

Please remember that this **candle is for decorative use only and not for burning**. If you do decide to make and give as a gift it would be advisable to pass on this safety information to the person on the receiving end.

Thank you for taking a peek and sharing your time.

Creative Hugs Tracey xxx
