144 x 144 mm card, Red and Green Cardstock

Take a 13x13cm piece of red cardstock and die cut the apple die from the Fresh Fruit Border Petites, then on the opposite end of the cardstock, die cut the Classic Scalloped Border Petites. Using a piece of green cardstock, die cut the apple die from the Fresh Fruit Border Petites ~ save the green apples! Adhere the diecut red cardstock to the front of your card, then glue in the green apples. Adhere slightly off centre three of the red apples, allowing the green apples underneath to show through. Apply glossy accents to the red apples and whilst still wet add some of the MS Glitter snow. Die cut one large apple from the Assorted Fresh Fruit Shapeabilities, again cover the apple with MS Glitter snow and allow to dry. Die cut three of the Labels 12 dies, two in green and one in red, adhere to cardstock. When your large apple is dry apply using 3D foam pads to the centre of the label. Use a Rub-On for wording and tie a small piece of ribbon into a bow and apply to card.
