Perforating tool: 1-needle (PG10241)

Embossing mat A4+ (PG31416)

Perforating mat A4+ (PG31417)

Scrap paper K&Company Christmas Cheer stripe (650503)

Ivory ribbon with gold coloured dots (1cm wide, 7cm long and 5cm long)

Flower felt sticker K&Company Christmas Cheer (569287)

4 gold coloured brads

Craft box basics

How do I make it?

Cut and fold scrap paper to create a 13.5cm square card. Attach two pieces of ribbon to the card with double sided tape. Fix the flower felt sticker to the card.

Attach a 6.2x6.9cm piece of parchment paper with masking tape on the multi grid and place this all on the embossing mat. Emboss the Christmas bell with the embossing tools. Turn the multi grid over, with the parchment paper still attached, and place it on the perforating mat. Perforate the Christmas bell according to the example. Remove the parchment paper from the multi grid.

Cut a 6.7x7.4cm piece of vellum gold. Fix the parchment paper and the vellum gold with brads to the card.

Card is made by Anja Bakker.
