

## "Santa Bear" by Lindsay Mason

### You will need:

Santa bear stamp  
"Have a Gggggreat Christmas" message stamp  
Nit Wits papers - Cherry Blossom: Gingham, pink stripe  
Black Memento ink pad  
Pro Marker pens  
Glimmer gems in green  
Scrap of red paper  
Deep pink ribbon  
White card stock  
Glossy Accents  
3D foam and double sided tape  
White DI card blank

### How to:

1. Draw a triangle 5 cms wide at the base and 13.5 cms tall. Tear small strips of the Gingham paper and stick these to the triangle, starting at the bottom and overlaying them towards the top. Trim the excess at the sides. Cover the card blank with the stripes paper, trimming to fit. Stick the Gingham tree to the right top of the card. Cut a simple pot shape from red paper and glue beneath the tree.
2. Stamp the Santa teddy onto white card four times and colour with Pro Markers. Cut out the whole image, then minus the back of the coat, then minus the teddy and then just the fur trim. Decoupage the image with 3d Foam and stick to the left of the tree.
3. Stamp the message onto a panel of white then mat onto Pink Stripe and then Gingham papers. Stick to the top left using 3D foam. Tie the ribbon around the card spine, creating a small bow at the top. Glue the Glimmer gems to the tree using Glossy Accents.

Tip: Glossy Accents is the perfect medium to glue tricky items such as the Glimmer Gems.
