MATERIALS

Since the final size of the card is 13x18,5 cm, the detailed measures to take are 26x18,5 cm; 13x14,2 cm (1,2 cm to stick included), and a stripe of 7x0,8 cm. Do the binding.

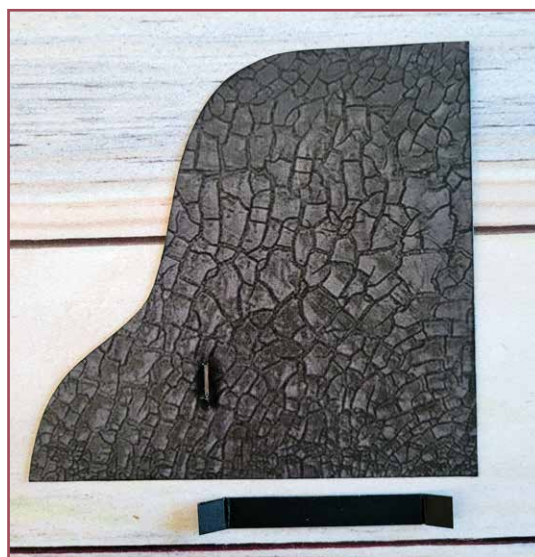

5 items piano shaped 13x13 cm (I suggest leaving less than 1 mm for each edge, cutting 12,8x12,8 cm) ; 1 item piano shaped 13x18,5 cm (leave less than 1 mm for each edge 12,8x18,4 cm) and the stripe 5x12,8 cm. Ink the edge of each element with the Chiaroscuro ink pad PKA101 using an ink blending tool. Prepare decorative fussy cut elements for the piano lid by choosing.

3

Glue the outer part of the piano item first. Then set the magnets as in picture. Closure magnets are not compulsory, but the closures will be better by using them.

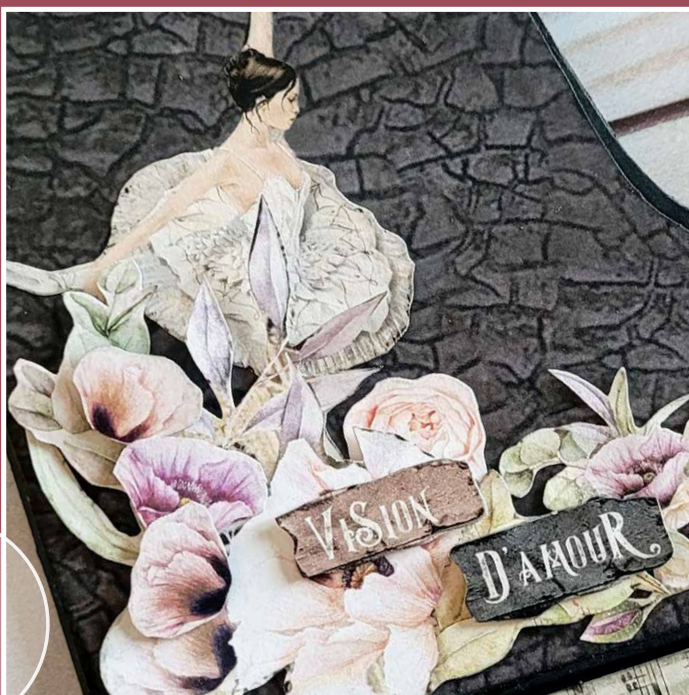

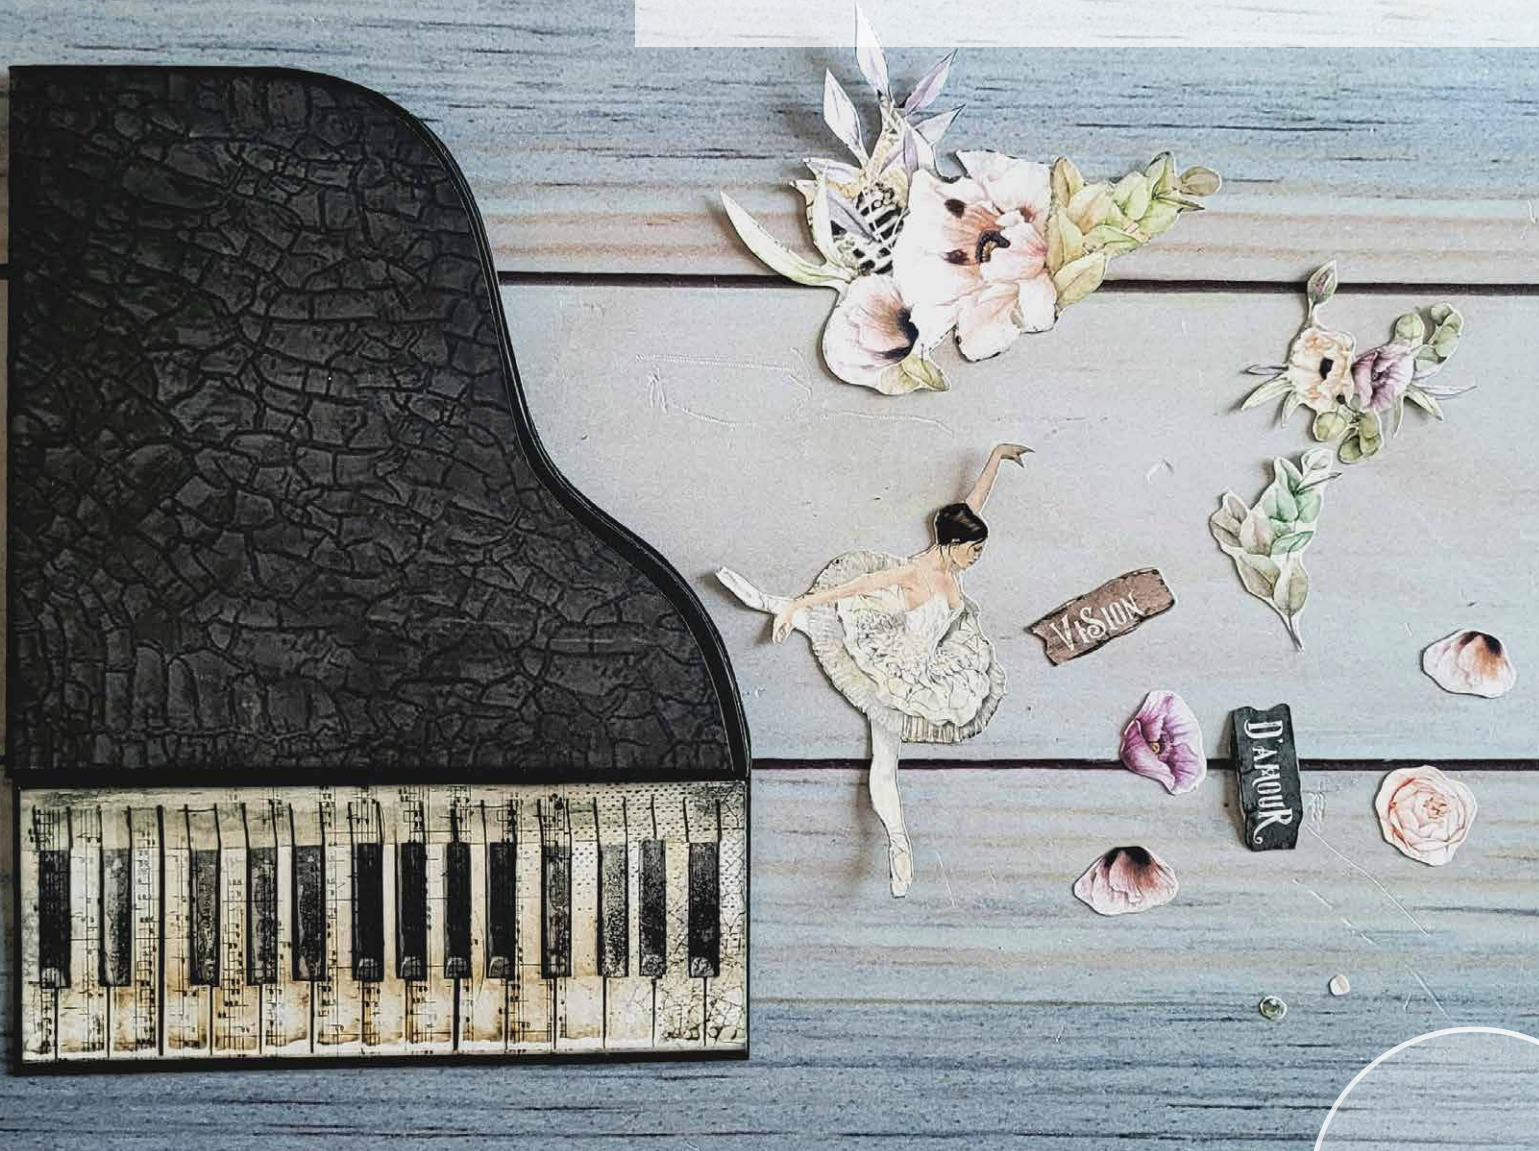

4

Make a little cut in the inner part of the lid to set the stripe, it will maintain the lid open. Be very careful to leave this part free from glue! It is a little pocket for the black cardstock stripe.

Stick the inner black cardstock item, put the third magnet on it and glue the last scrapbooking paper. Pay attention not to put the glue on the stripe socket.

5

Embellish the outer part of the card with the fussy cut items and stick the black stripe only below. In this way the card will completely close and, while open, the stripe will go down in the pocket in the inner part of the lid.
